

RISK ASSESSMENT (GENERAL) SCHEDULE

Approved and adopted at the Meeting of Carrington and New Bolingbroke Town Council on 25.11.2025

Annual review – last review 11.25, next review 05.26

Note: This document has been compiled with reference to JPAG's (the Joint Panel on Accountability and Governance) 2021.

Definition of Risk Management

“Risk is the threat that an event or action will adversely affect an organisation’s ability to achieve its objectives and to successfully execute its strategies. Risk management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.” *Governance and Accountability for Smaller Authorities in England (March 2021)*.

Purpose of this document

This document has been produced to enable Carrington and New Bolingbroke Town Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise those risks.

The Parish Council is aware that although some risks can never be eliminated fully, it is important that it should have in place a strategy that provides a structured, systematic and focused approach to managing risk, which:

- Identifies the subject
- Identifies what the nature of the risk may be.
- Identifies the level of risk. –
- Evaluates the management and control of the risk and records findings
- Reviews, assesses and revises procedures if required

Topic	Risk(s) identified	H/M/L	Management/Control of Risk	Action: Review/Assess/Revise
-------	--------------------	-------	----------------------------	------------------------------

MANAGEMENT
